

TAB Technician Training

Construction and Performance Testing of Stairwells & Humidity Control

OCTOBER 03, 2023 3:00PM – 6:30PM

Do we have your attention?

Jim Kelleher will discuss requirements of the IBC and how it applies to the construction of stairwells used as egress enclosures. We review commonly recognized and used components and definition of common terms and associated reference to the IBC. The attendee will be exposed to common inspection items, examples of defunct observations, and preliminary conditions required to conduct a proper pressurization demonstration and acceptance test. Testing protocols and procedures and test equipment will be reviewed.

Darren Aley will present Humidity Control including various means & methods. You will also learn why Humidity Control is important.

This training is open to all NEBB Certified and Non-Certified Technicians

Fee: **\$75.00**, per technician

Location: **The Crowne Plaza**

173 Jennifer Road, Annapolis, MD 21401

Please register by filling out the attached form and submitting it to barbara@capitalmarva.org no later than 09/26/23. Once received, Barbara will e-mail you an invoice for payment.
